

Greg, please accept our apologies as neither myself or Jason are able to attend tonight's meeting. Please find below the crimes that have been reported within the town since your last meeting.

As you will notice there has been a large number of car crimes within the Town over the past month. Two of these were criminal damage to motor vehicles which were unrelated and the other crimes were thefts from motor vehicles or interference of a motor vehicle, whereby the offender gained entry to the vehicle but nothing was stolen. These offences occurred over a Saturday night and insecure vehicles were targeted.
